INSTALLATION SERVICES

WE SUPPORT YOU FROM SOLUTION TO IMPLEMENTATION

We partner with over 3,000 installation facilities nationwide to meet your Installation needs in any state.

WHITE GLOVE SERVICES

We handle the installation coordination directly with the driver.

HASSLE-FREE PROCESS

We locate the nearest installation facility for the driver and facilitate the entire process – start through completion.

NO HIDDEN PRICING

We offer national installed pricing good anywhere in the United States on most products.

EXTENDED NETWORK

We have over 3,000 installation facilities nationally. We also have sub-contracted installation facilities, and mobile installers in the Midwest.

STINGER FIELD SERVICES APP

Our app allows you to manage your customers, utilize electronic forms, track invoices, create and send quotes, draw up schedules and work orders, and automate your reports.

LIGHTING SYSTEMS

Advanced Technology for a Safer Ride

Customizable lighting systems to help improve visibility inside and outside of the vehicle – making it safer, easier, and more efficient to work or locate items.

SENSORS

Enhanced Accuracy with Triangulation Technology

Front and reverse sensor systems for commercial vehicles enhance your fleet's safety with audible and visual alerts.

StingerCommercial.com

sales@StingerCommercial.com

ParkAlert®

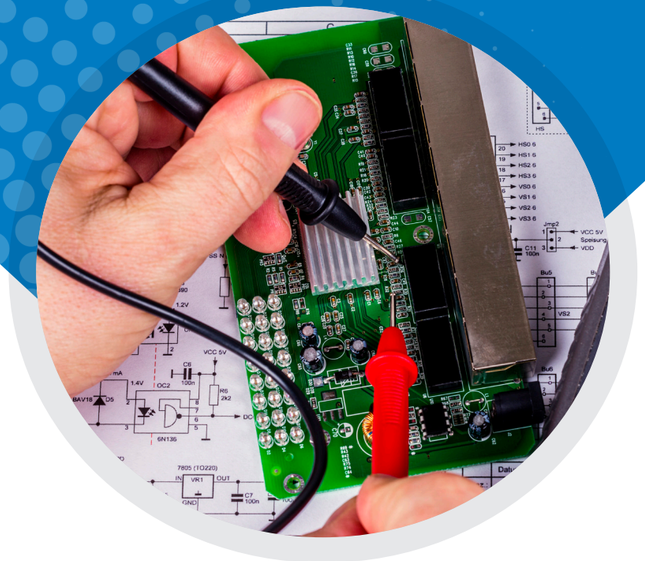
ParkAlert digital parking sensor system is a revolutionary advancement in obstacle detection. Triangulation technology, using the multi-sensor setup, calibrates obstacle detection for improved distance detection, reduced blind spots, and improved obstacle warning.

- Easy-to-install, only requires 2 wire connections to the vehicle; reverse and ground
- Enhanced accuracy features triangulation technology
- IP67-rated, water/debris proof rating
- Paintable allowing for the perfect match
- Bumper-friendly, can be installed on both plastic and metal bumpers

Front and Rear Systems:

- 2, 4 and 6 sensor systems available
- Audible distance warning
- Cars, pickup trucks, delivery vans, extended box trucks

Optional visual distance display



INTEGRATION AND HARNESSING

We design and engineer premium harnesses that fully integrate into any commercial vehicle.

- Design and development services
- Large board body harness production
- Vehicle-specific “plug-and-play” solutions for safety products
- CAN accessory power harnesses for installations

CAMERAS

3RD BRAKE LIGHT

Transform your third brake light with a camera and add extended visibility when reversing

BLIND SPOT

Reduce blind spots and eliminate risk with side view cameras

BOX STYLE

Heavy-duty, built for any commercial vehicle

BULLET STYLE

Sleek unobtrusive design

WIRELESS

Add a wireless camera to your commercial vehicle and reduce blind spots

HIGH DEFINITION

AHD technology will support video resolutions up to 1080p. AHD cameras can help capture more details such as license plate numbers

VEHICLE-SPECIFIC

We know every vehicle is different so we develop solutions specific to the needs of your fleet

Commercial vehicles, due to their size, have many blind spots. Adding cameras can reduce those blind spots providing added safety and convenience.

StingerCommercial.com

sales@StingerCommercial.com

MONITORS

Gain a clear view of your surroundings with our AHD monitors that can be mounted based on your fleet's needs. They make viewing your surroundings in any commercial vehicle possible.

DASH MOUNT

Easily add a safety camera system to your fleet of commercial vehicles with our dash-mount monitors with multiple camera inputs.

FLUSH MOUNT

Install our flush-mount monitors with Stinger Commercial safety cameras to make your fleet safer.

WINDSHIELD MOUNT

Add safety cameras to any commercial vehicle with our windshield-mount monitors.

MIRROR MONITORS

Enhance your commercial vehicle's rearview mirrors with a replacement solution that your drivers can view their safety cameras from.

- Parking sensor overlays
- Multiple video inputs
- Auto-dimming LCD
- Perfect for delivery vans without rear windows

SECURITY SYSTEMS

- Operates from factory remotes, or you can add 2 remotes for increased range
- Multi-tone mini siren
- Improved custom code override, user selectable and programmable
- Dual stage shock sensor with city mode
- 9 NOC outputs, 13 control options
- 4 - Auxiliary outputs, 8 control options
- FlashLogic based system programming
- Telematics port - Carlink ready

Optional Features

- Automatic arming
- Automatic locking
- Illuminated entry

BACKUP ALARMS

Adding an exterior backup alarm to a commercial vehicle helps eliminate accidents by warning people in the vehicle's path that it is moving backwards. Each vehicle specific plug-and-play T-harness integrates directly into the vehicle's tail light connector for a seamless installation. Each harness comes with a 2-pin connector for an easy connection that plugs directly into the water resistant alarm.

FULLY WATERPROOF
HARNESS AND CONNECTORS
Ground circuit is through vehicle harness vs. chassis ground

97db ALARM
Traditional beeper backup alarm

OPSIS DASH CAMERAS

KEEP YOUR FLEET SAFE WITH THE PUSH OF A BUTTON.

At Stinger, we believe that a dash camera should be more than just a passive recording device; it should be a reliable companion. OPSIS™ dash cams give drivers the security of knowing they will be able to capture clear, crisp first-hand incident evidence, should the need arise. With easy-to-use setup features, OPSIS records the surroundings of your parked vehicle to ensure your car is safe and sound. OPSIS also observes other driver's behavior around you. Always stay vigilant, never miss a moment with OPSIS by Stinger.

- Capture clear, crisp first-hand incident evidence
- Record the surroundings of your parked vehicle
- Observe other drivers' behavior around you
- Share dash cam videos with affected parties and authorities
- Document scenic drives or road trips
