AudioControl acquired, amplifying premium sound and audio solutions.

2023
StartX acquired, providing the simplest remote start kits on the market.

2024
Race Sport Lighting and BOYO acquired, increasing our line of vehicle solutions.

2025
HORIZON12 infotainment radio debuts providing a larger 12.8" screen.

WITH SUCCESS COMES REACH

Serving numerous industries and diverse customers, we are dedicated to optimizing commercial vehicles and fleets of all types.

INDUSTRIES:

-  **Construction**
-  **Agriculture**
-  **RV**
-  **OEM**
-  **Government**
-  **Public Transportation**
-  **Marine**
-  **Work Vans & Trucks**
-  **Transport Trucks**

CUSTOMERS:

-  **OEMs**
Including some of the leading passenger and commercial vehicle manufacturers in the world.
-  **Agriculture & Construction**
Helping operators meet and conquer environmental challenges through intelligent design.
-  **Fleet Managers**
Saving them money while improving safety and productivity for large and small fleets.
-  **Recreational Vehicles**
Simplifying the driving experience with advanced features for added safety and enjoyment.

THE COMPANY WE KEEP

Stinger Commercial is proud to support over 7,000 customers worldwide, including many of the most recognizable and highly respected brands around.

THE ART OF IMPLEMENTATION

Through a full range of solutions to meet your large or small fleet needs, we can add any type of technology into your commercial vehicles.

LIGHTING SYSTEMS AND SENSORS

LIGHTING SYSTEMS

Through advanced technology, our customizable lighting systems help improve visibility inside and outside the vehicle, making it safer, easier and more efficient to work and locate items.

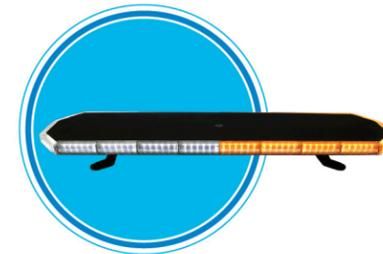

COMMERCIAL
AUX LIGHTING

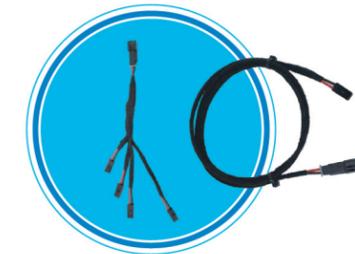

REVERSE
HITCH BARS

VEHICLE SPECIFIC
LIGHTING SOLUTIONS

CARGO, BIN/SHELF
& TOOL BOX LIGHTING

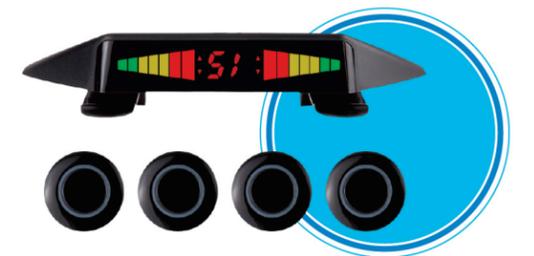

SENSORS

Through enhanced accuracy with triangulation technology, our front and reverse sensor systems provide audible and visual alerts to improve your fleet's safety.

PBS-RD1

77GHz blind-spot detection system with rear-sensing radar technology.

INTEGRATION & HARNESSING

We design and engineer premium harnessing that fully integrates into any commercial vehicle.

- Design & development services
- Large board body harness production
- Vehicle-specific, plug-and-play solutions for safety products
- Accessory power harnesses
- CAN bus to analog signaling harnesses
- OEM sensor relocation harnesses

CAMERAS

Blind Spot
Reduce blind spots and eliminate risk with side-view cameras.

Box Style
Heavy duty, built for any commercial vehicle.

Wireless
Add a wireless camera to your commercial vehicle and reduce blind spots.

High Definition
AHD technology supports video resolutions up to 1080p, enabling AHD cameras to capture more details such as license plate numbers.

Bullet Style
Sleek, unobtrusive design.

Vehicle - Specific
We know every vehicle is different, so we develop solutions for the specific needs of your fleet.

MONITORS / MIRROR MONITORS

Get a clear view of your surroundings from any commercial vehicle with our AHD monitors, which can be mounted based on your fleet's needs.

Dash Mount
Easily add a safety camera system to your commercial fleet with our dash mount monitors featuring multiple camera inputs.

Flush Mount
Install our flush-mount monitors with Stinger Commercial safety cameras to make your fleet safer.

Windshield Mount
Add safety cameras to any commercial vehicle with our windshield-mount monitors.

OPSIS DASH CAMS

Keeping your fleet safe with the push of a button, our OPSIS™ dash cams give drivers the security of knowing they can capture clear, crisp, first-hand evidence should the need arise. More than just a passive recording device, each one is a reliable companion to help you stay vigilant and never miss a moment.

- Easy-to-use setup features
- Capture clear, crisp, first-hand incident evidence
- Record the surroundings of your parked vehicle
- Observe of other drivers' behavior around you
- Share dash cam videos with affected parties and authorities
- Document scenic drives or road trips

DC-H3-FG
2K QUAD HD Dash camera
with included FHD rear camera

- 2K Quad HD Dash Cam (2K/2560x1440)
- Bracket Mount with Adhesive
- 32GB MicroSD Card
- FHD Rear Camera (1080p)
- Rear Camera Cable

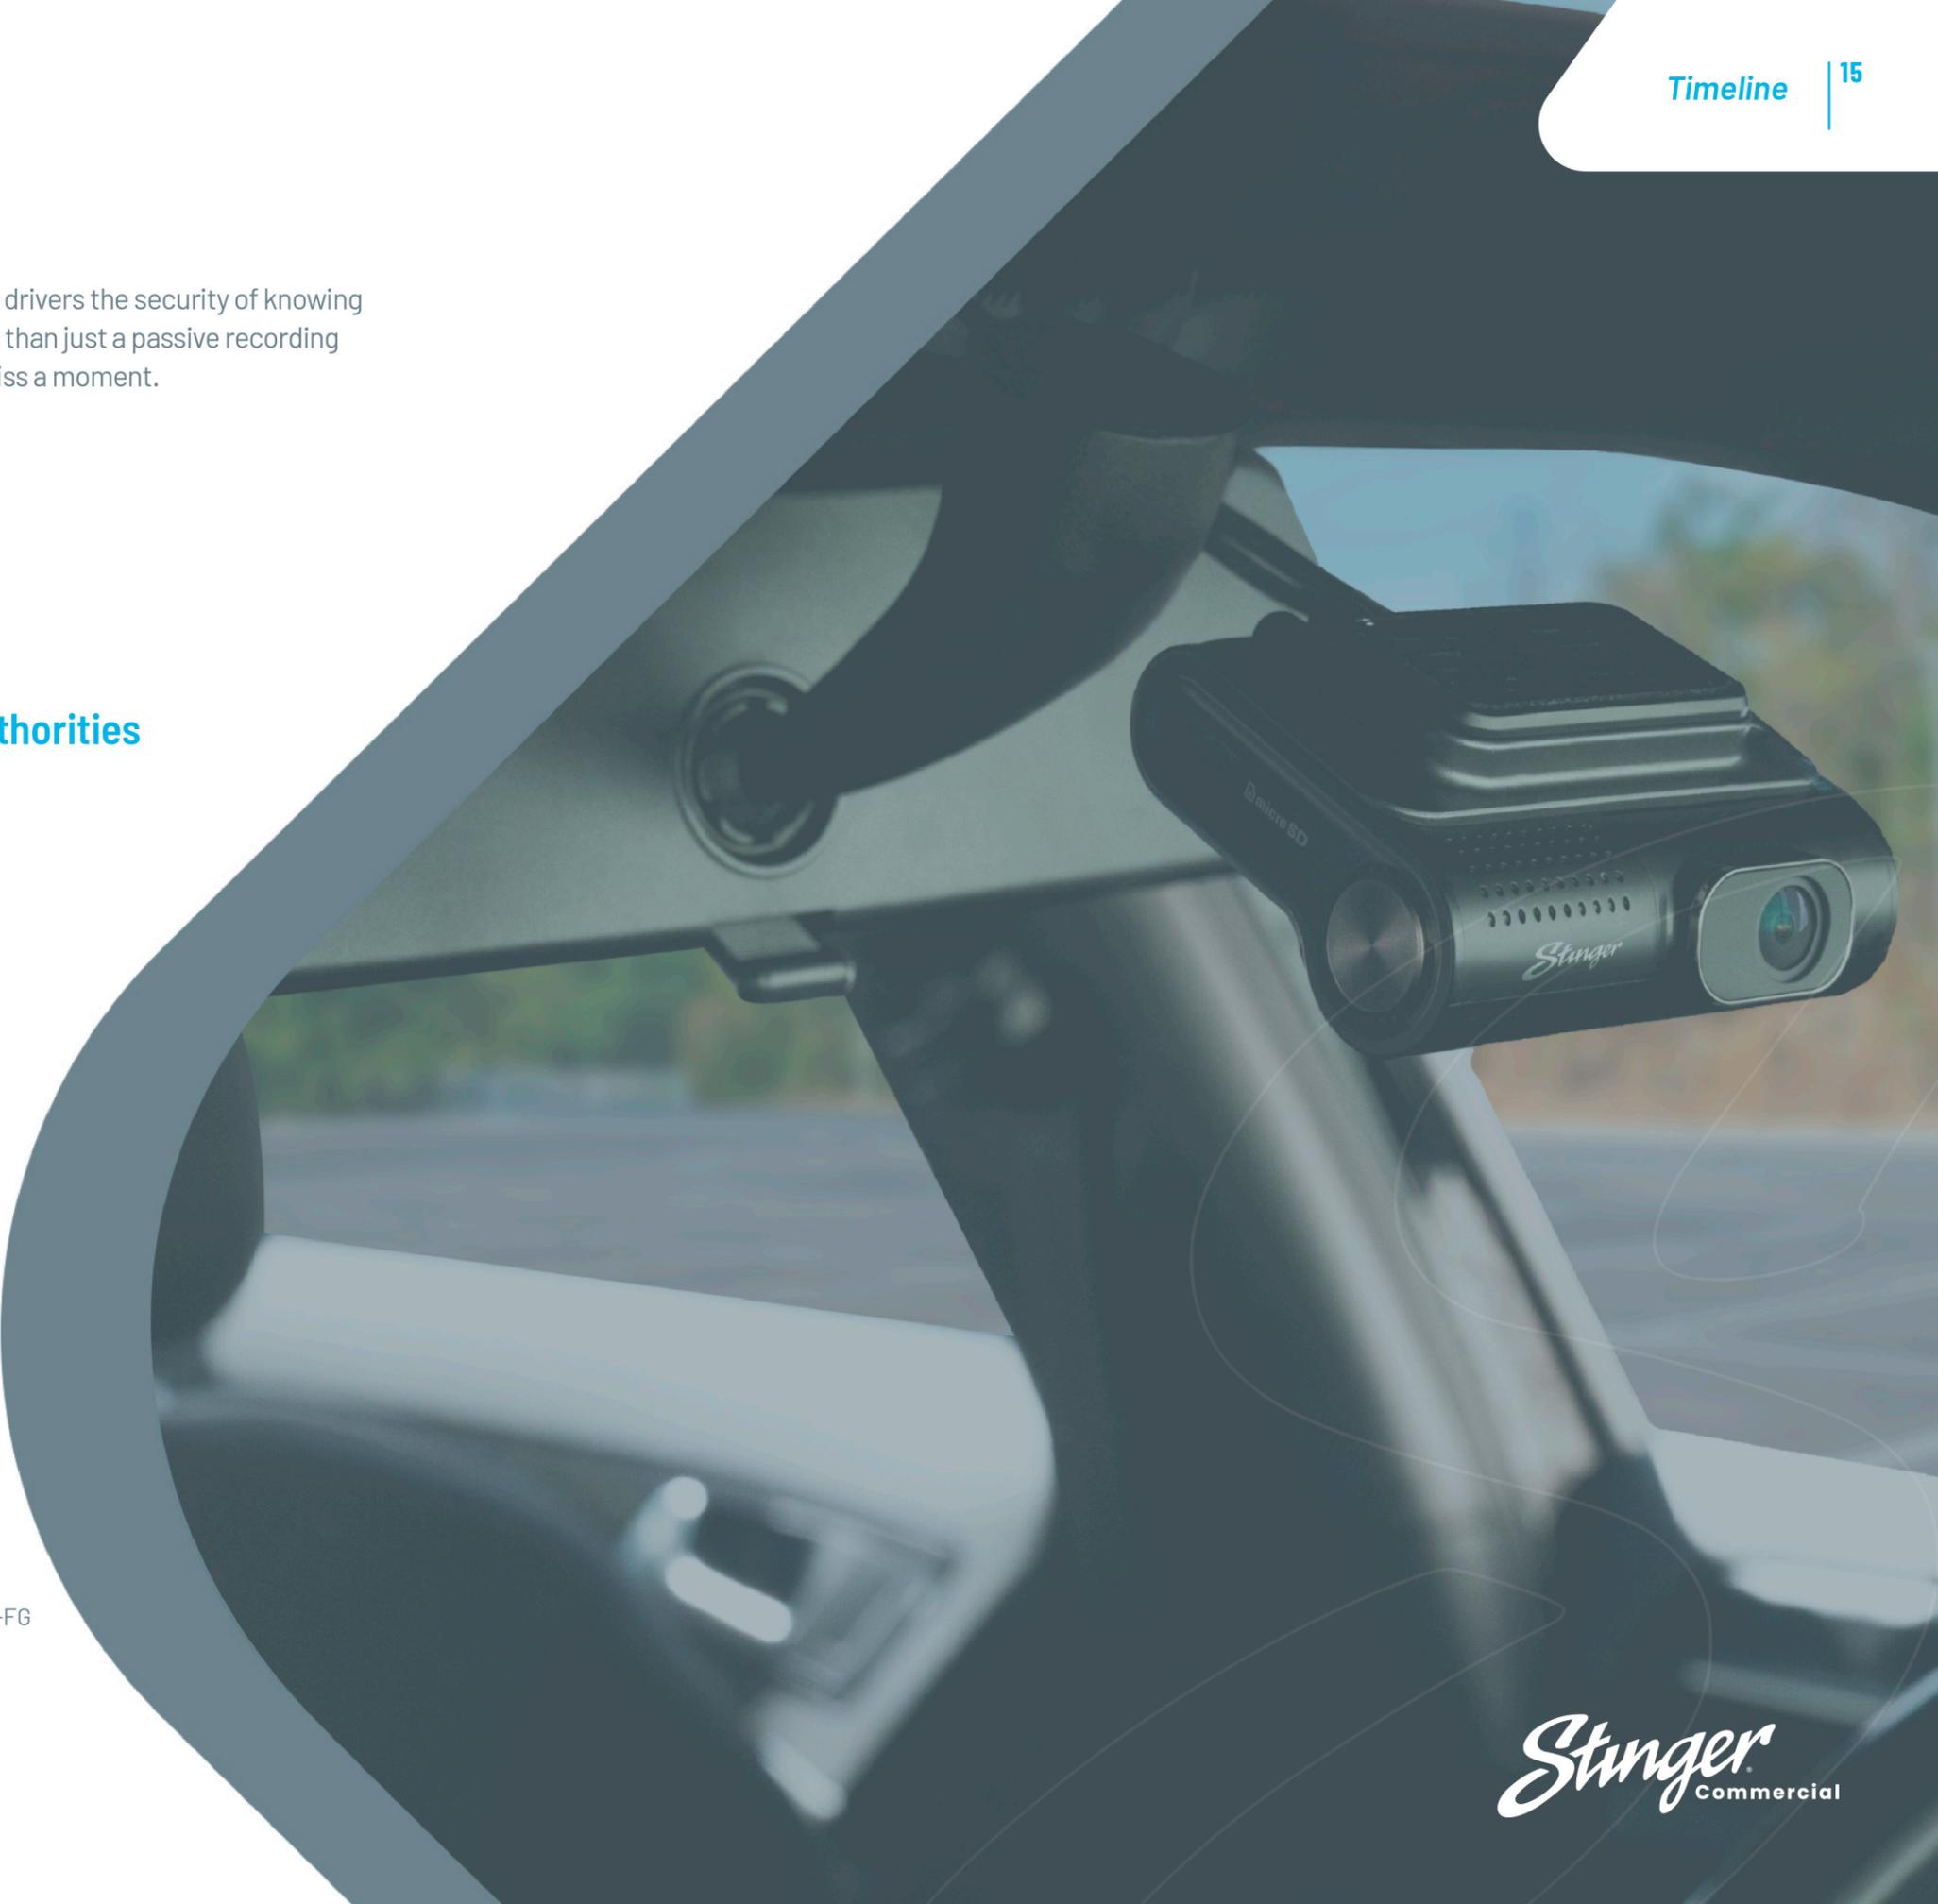

DC-M3-FG
FHD Dash camera
with included FHD rear camera

- FHD Dash Cam (1080p)
- Bracket Mount with Adhesive
- 32GB MicroSD Card
- FHD Rear Camera (1080p)
- Rear Camera Cable

HWK-TW01
Dash cam installation kit

DGCA-GPSANT
External GPS antenna for DC-M3-FG

SECURITY & REMOTE START SYSTEMS

- Operates from factory remotes, or you can add 2 remotes for increased range
- Multi-tone mini siren
- Improved custom code override, user selectable and programmable
- Dual-stage shock sensor with city mode
- 9 NOC outputs, 13 control options
- 4 auxiliary outputs, 8 control options
- FlashLogic based system programming
- Telematics port – CARLINK ready

Optional Features

- Automatic arming
- Automatic locking
- Illuminated entry

BACKUP ALARMS

Adding an exterior backup alarm to a commercial vehicle helps eliminate accidents by warning people in the vehicle's path that it's moving backwards. Each vehicle-specific, plug-and-play T-harness integrates directly into the vehicle's taillight connector for a seamless installation. It comes with a 2-pin connector for an easy connection that plugs directly into the water-resistant alarm.

FULLY WATERPROOF HARNESS AND CONNECTORS

Ground circuit is through vehicle harness vs. chassis ground

97db ALARM

Traditional beeper backup alarm
